

Shanghai Tower Shanghai, China **128 flights of stairs**

The tower takes the form of nine cylindrical buildings stacked atop each other, totaling 128 floors, all enclosed by the inner layer of the glass façade. Between that and the outer layer, which twists as it rises, nine indoor zones provide public space for visitors. Each of these nine areas has its own atrium, featuring gardens, cafés, restaurants and retail space, and providing 360-degree views of the city.
