2017–2018 Second Quarter ENERGY AWARDS

The **SCHOOL ENERGY AND RECYCLING TEAM (SERT)** program is pleased to announce that our schools made significant efforts to save energy during the second quarter (December 2017–February 2018) of the 2017–2018 academic year. We experienced an extremely cold winter that necessitated the heating of Montgomery County Public Schools (MCPS) during unoccupied hours. Even so, more than 40 percent of our elementary schools demonstrated great energy management behavior and showed energy savings compared to their baseline.

Schools achieving top energy cost avoidance as compared to their baseline usage are eligible to receive quarterly monetary awards. The baseline for each school is an average use of their prior five school years for the same quarter. Schools without an established baseline are eligible to receive a monetary Great Energy Management (GEM) award which is based on demonstrated active participation in the SERT program and energy-efficient behavior.

We applaud all of our students and staff for their commitment to conservation and sustainability and congratulate the following 50 MCPS elementary schools for earning SERT energy awards:

2017–2018 Second Quarter ENERGY AWARDS

The **SCHOOL ENERGY AND RECYCLING TEAM (SERT)** program is pleased to announce that our schools made significant efforts to save energy during the second quarter (December 2017–February 2018) of the 2017–2018 academic year. We experienced an extremely cold winter that necessitated the heating of Montgomery County Public Schools (MCPS) during unoccupied hours. Even so, more than half of our secondary schools demonstrated great energy management behavior and showed energy savings compared to their baseline.

Schools achieving top energy cost avoidance as compared to their baseline usage are eligible to receive quarterly monetary awards. The baseline for each school is an average use of their prior five school years for the same quarter. Schools without an established baseline are eligible to receive a monetary Great Energy Management (GEM) award which is based on demonstrated active participation in the SERT program and energy-efficient behavior.

We applaud all of our students and staff for their commitment to conservation and sustainability and congratulate the following 36 secondary schools for earning SERT energy awards:
