

Academic Vocabulary

Researchers such as Kinsela, 2003; Becks, 2002; Marzano, 2005; and Scarcella 2003, stress that vocabulary knowledge is strongly correlated to academic achievement. Academic language or vocabulary is essential to reading comprehension, learning, and applying concepts. This type of vocabulary used during instruction is known as Cognitive Academic Language Proficiency (CALP). It differs from the language used in daily social interactions, known as Basic Interpersonal Communicative Skills (BICS). The WIDA Consortium categorizes academic vocabulary from content areas into three categories – *General*, *Specific* and *Technical* language. ESOL teachers can use *WIDA’s Performance Definitions* to guide their planning for systematic and explicit vocabulary instruction. As the students progress towards attaining English language proficiency, their use of more complex vocabulary must also increase.

Engaging English language learners with vocabulary across the curriculum in multiple contexts and language domains helps them build word consciousness (metalinguistic skills) as well as gain a deeper understanding of concepts. Closing the vocabulary gap for ELLs will level the playing field by providing them a strong foundation for the knowledge and skills needed in the 21st century.

The list on the following page delineates the type of vocabulary needed to access each content area during the marking period. Specific Language Vocabulary words are listed by content because they are important to learning the vocabulary in context during the marking period, however, they may also be used in other content areas.

<p style="text-align: center;">General Language Vocabulary</p> <p><i>Words required for basic communication. They are often learned through context.</i></p>	<p style="text-align: center;">Specific Language Vocabulary</p> <p><i>They are academic words that appear in high frequency across content areas and need to be taught explicitly. (Listed in orange.)</i></p>	<p style="text-align: center;">Technical Language Vocabulary</p> <p><i>Words limited to a specific content, low frequency, and best taught in a relevant context. (Listed in black.)</i></p>
<ul style="list-style-type: none"> Basic Interpersonal Communicative Skills (BICS) Highest frequency vocabulary General content vocabulary 	<ul style="list-style-type: none"> Appear frequently across content areas (e.g., describe, synthesize, analyze, pattern, solution) Multiple-meaning words used in a variety of contexts and contents Provides an efficient way to express a known concept 	<ul style="list-style-type: none"> Low frequency words or phrases Limited to a specific content Best taught in context as needed

General Language Vocabulary

Select words based on students' needs to communicate in the classroom and school and to complete specific tasks.

read, write, observe, describe, label, identify, match, explain, discuss, predict, question, ask, answer, compare, same/similar, different, draw, sort, graphic organizer, journal, picture, sing, clap, song

Thinking and Academic Success Skills Vocabulary – Synthesis and Effort/Motivation/Persistence

compose, relationships, challenge, work/try hard, strategies, teamwork

Specific Language Vocabulary and Technical Language Vocabulary by Content

Art	draw, observation, imagination, art elements (e.g., colors, lines, shapes, textures, pattern), clay (e.g., pinch pot, glaze, fire, kiln)
Health Education	affect, explain, compare discuss, identify, define, influence, choice label, healthy/unhealthy choice, body, food group, media, appearance, different, smell, source, proper manners, family, family structure, position
Information Literacy	research (e.g., topic, sources, question, keyword, index, key detail, conclusion), source list (e.g., works cited list, author, title), narrative text (e.g., characters, setting, problem, solution, main idea, illustration)
Math	identify, describe, compare , describing measurement (e.g., length, measure, longer/shorter than, almost as long, longest, shortest, about the same as, equal, wider, lighter), shapes (e.g., solid/flat shape, circle, triangle, square, rectangle, faces) compose, decompose, 2-dimensional shape, 3-dimensional shape,
Music	rhythm (e.g., beat, long/short sound), dynamics (e.g., whispering/speaking/shouting voice, loud, soft)
Physical Education	exercise, lungs, skin, heart (e.g., heartbeat, pulse), balance, transfer (weight), hop, leap, jump, walk, run, roll
Reading	narrative text (e.g., author, illustrator, title, characters, actions, setting, events, major event, illustrations, personal connection), informational text (e.g., numbered steps, main idea, key details, information), adjective, noun, verb, antonym/opposite, affixes, prepositions (e.g., to, from, in, out, on, off, for, of, by, with)
Science and Engineering	living thing, grow , organism (e.g., plant, animal), basic needs (e.g., survival, life cycle, water, food, air, space), external features (e.g., claw, beak, eyes, tail, shell, scales, skin, feathers, fur, root, stem, leaf, flower, fruit, seed), animal classifications (e.g., fish, amphibians, reptiles, birds, mammals), insects (e.g., Darkling beetle, head, shell, wings, body, 6 legs), humans (e.g., hands, fingers, fingernails, hair), environments/habitats (e.g., forest/woodland, pond/stream, meadow/grassland)
Social Studies	goods, environment, exchange, money , needs and wants (e.g., choose/choice, good choice, bad choice, consequence, advantage, disadvantage, reason), jobs (e.g., worker, skills, goods, natural resource, technology, market, value) human resource, worker, service
Writing	personal memory writing (e.g., event, illustration, details), informational writing (e.g., topic, title, table of contents, label, numbered steps), adjective, noun, verb, capital letter

Note: Use this document to select the requisite academic vocabulary necessary to make the content of the curriculum comprehensible for ESOL students. Words are listed in the order they are addressed during the marking period and grouped according to the context in which they are taught. Specific Language Vocabulary used across contents is listed in **Orange** and Technical Language Vocabulary is listed in **Black**.
