

Summer camps with Mad Science are the best!

See our locations on back of flyer and more information online at dc.madscience.org or call us at **301-593-4777**

Children have so much fun they forget they're learning!

Fight awesome week-long topics!

Crazy Chemworks

Shake up a flask of fun in the lab and become a junior chemist! Learn to recognize chemical reactions and mix up a few reactive ingredients for some sensational results.

Red Hot Robots

Prepare for a scientific journey through circuitry and sensors. Compare the anatomy of a robot to that of our own. Explore several different types of robots and build your own to take home!

Secret Agent Lab

Suspects! Schematics! Sleuths! Connect the dots using science to help solve a mystery in this hands-on investigation of the science of sleuthing.

Dinosaurs & Ancient Worlds

Dig up dinosaurs and the ancient past! Solve real-life mysteries! Study bone fragments, pottery shards, and amber deposits to understand what they can tell us about history.

NASA: Academy of Future Space Explorers

Blast off with a camp designed and created specifically by NASA engineers! Train to become a future space explorer, and get set on a trajectory from our Earth's atmosphere to the outer reaches of our solar system!

Flight Academy

Calling all future pilots! As a Mad Science flight cadet, you will take a nosedive into the world of aerodynamics. Build your own kite, test stunt planes, look to the stars, and watch as we launch model rockets over 200 feet into the air!

Eureka! Invention Camp

Creative contraption warning!! Each day you'll be given challenges which must be overcome using basic materials, simple machines, tips from world famous inventors, and the most important thing of all — your mind.

Science in Motion

Discover how everything moves with science! Each day, learn about a different realm of the scientific world. You'll step into the shoes of an engineer, put on the lab coat of a chemist, look through the binoculars of a zoologist, and more!

Mad Science camps offer a daily

combination of in-class discovery and exploration, outdoor games, physical activities, and hands-on application of the scientific principles, presented in a fun way. Your child will be able to touch, see, hear, and smell what science is all about. Campers create, build, and assemble a variety of take-home projects while exploring how science affects the world around us.

All camps are for rising 1st - 5th graders.

Hours and Pricing per week*

Full-Day: 9-4pm, \$375 - \$390

*Prices subject to change

'Red Hot Robots' has a material fee of \$15

Extended Care (offered at most camps)

Before care: 8-9 am, \$60 per week

After care: 4-6 pm, \$115 per week

Both: \$145 per week

Weekly themes:

RHR: Red Hot Robots
FLA: Flight Academy

CCW: Crazy Chemworks
SAL: Secret Agent Lab

SIM: Science in Motion
EKA: Eureka

NASA: Academy of Future Space Explorers
DINO: Dinosaurs & Ancient Worlds

We run camps at schools, businesses, and churches for customer convenience. Camp content is identical regardless of location.
Topic summaries can be found on the other side of this flyer!

*No camp Friday, July 4 - camp week is prorated.
