

I am honored to serve the students, staff, and families of the Clearspring Elementary School community. Before becoming an administrator, I taught elementary school as a classroom teacher (K-5), focus teacher, and coordinator of school programs, at the middle school level I taught Research Methods, and Language Arts, and at the high school level Nutrition and Home Management. I met the love of my life while attending Washington Adventist University, Takoma Park, MD. We have been married for 26 years. We have two sons; both are in college. I enjoy spending time with my family, gardening, and solving puzzles. I am excited to be a part of the Husky Family!
