

4th Grade News!

Ms. Burfeind, Ms. Egan, Ms. Fierstein

This month, we...

Math

divided multi-digit numbers with and without remainders, as well as solved multi-step word problems using all four operations.

English Language Arts

read and compared the points of view in different selections and analyzed how point of view affects a story; used sources to develop an opinion essay.

Science

investigated how the senses work together to send signals to the brain and how an organism receives and processes information.

Health

learned mindfulness strategies to help us cope in difficult situations and identified ways to stay safe around energy sources.

Next month, we will...

Math

review the meaning of fractions and begin decomposing, adding, and subtracting fractions with like denominators.

English Language Arts

read and compare texts about developing new technology for a green future.

Science

learn about how energy is transferred in order to design, build and test a bumper car that is fun, functional and safe in a high energy collision.

Health

recognize that food intake and physical activity promote lifelong wellness.

Upcoming Dates to Remember
