

4th Grade News!

Ms. Burfeind, Ms. Egan, Ms. Fierstein

This month, we...

Math

used standard algorithm to add and subtract within 1,000,000 and represented multi-step word problems using models in order to solve.

English Language Arts

identified the main idea and key details of an informational text; summarized fables and fairy tales; brainstormed and planned a fairy tale.

Science

learned what energy is and the different types of energy; investigated how energy is transferred from place to place.

Health

used a growth mindset in order to develop personal goals for the semester and learned the decision making process to help us make good and healthy choices.

Next month, we will...

Math

multiply multi-digit numbers using a variety of strategies.

English Language Arts

analyze various text types in order to determine importance, to compare and contrast key ideas, and explore point of view; use research in order to write an informative text.

Social Studies

use real life scenarios to study economics.

Health

learn mindfulness strategies to help us cope in difficult situations and develop plans for personal well-being.
