

KINDERGARTEN MCCSC VOCABULARY

Marking Period 3

composite figure: a figure that is made up of two or more geometric figures.

Formas compuestas: Una figura hecha de 2 o más figuras geométricas.

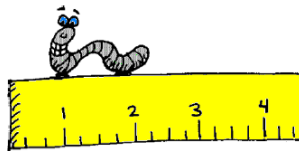

attribute: A characteristic of an object such as color, shape, size, etc.

Atributo: Una característica de un objeto tal como color, forma, tamaño, etc.

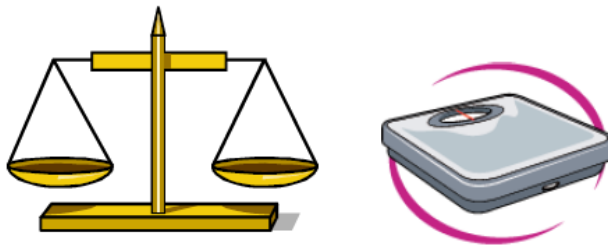

length: A measure of how long something is.

Longitud: Cuan largo es algo.

weight: A measure of how heavy something is.

Peso: Medida de cuánto pesa una cosa.

non-standard units of measure: units of measurement which are not included in the Metric or Customary Measurement Systems. They include paperclips, hand spans, snap cubes, color tiles, or any object that can be aligned to what is being measured so that the student can then count to find the length or width. Example: the student desk might be 20 paper clips long.
