

Good evening Rosemont Families,

I hope you are healthy and adapting to life with social distancing. This week's **Rosemont Community Connection** features five important messages.

Language Arts and Math Schedule

Welcome to week three of distance learning! This week your child will engage in language arts lessons on Tuesday and Thursday and Eureka math lessons on Wednesday and Friday. Students should connect every day with the teacher via Zoom. If you and/or your child needs support, has a question or would like to connect with a staff member, they can sign up using the link on our school website.

<https://www.montgomeryschoolsmd.org/schools/rosemontes/> As a reminder, there is no school on Monday, April 13.

Virtual Parent Meeting

Please join Ms. Cooke on Tuesday, April 21 for our first virtual Parent meeting. We will meet via Zoom from 7:00pm to 8:00pm. Please mark your calendar. During these unprecedented times, fostering relationships with the community is essential to our students' success. We will include the zoom code and password in next week's community connection message. We look forward to seeing you!

RES School Counseling Website

Montgomery County Public Schools and Rosemont Elementary School are committed to providing counseling services and support to our students and families. Please visit our school counseling website at

<http://sites.google.com/mcpsmd.net/rosemontcounselingsite1/home> to make an appointment, access MCPS resources, and review community/parent resources.

Chromebook Distribution

Additional opportunities to obtain Chromebooks will be provided in the coming weeks. If your child still needs a personal Chromebook please contact their teacher immediately. You may also leave a message on the school answering machine with your child's name, grade, and teacher, requesting a Chromebook.

Free Internet Access

For families without internet access at home, Xfinity is providing free access to their Wi-Fi public wireless network. The Xfinity network should appear as an option when

you attempt to connect devices to Wi-Fi at home. For a map of Xfinity Wi-Fi hotspots, visit www.xfinity.com/wifi. Once at a hotspot, select the xfinity Wifi network name in the list of available hotspots and then launch a browser. These are typically available even from within someone's home.

As we navigate in a world of uncertainty, please have patience with our teachers and staff. Your partnership is vital to support your child's academic success. I am confident that the power of our community will enable us to get through this together.
