

# DECEMBER 2022 NEWS

Grade 3 Westbrook Elementary School

## A Peak At What We Are Learning in Third Grade

**Reading: Benchmark Unit 3: How do living things adapt to change?**

- ★ Students will read and compare text selections to learn about animal adaptation.
- ★ Students will analyze a mentor text, find facts and details in a print source, gather evidence, conduct research and write an informative report.

**Math: Module 3: Multiplication and division with units of 0, 1, 6-9 and multiples of 10.**

- ★ Students will work with the commutative, distributive and associative properties, use number bonds to decompose and represent the unknown with a letter.
- ★ Fluency of all basic math facts is key: addition, subtraction, multiplication and division.

**Science: Weather and Climate:** Students will design and test a weather resistant structure using the engineering design process as a culminating activity.

**Social Studies: Geography:** Students will compare places and regions around the world using geographic characteristics.
