HOW MANY COLLEGE APPLICATIONS???

While there is no magic number, between 3-9 is usually enough. It should be a combination of reach, match, safety & Maryland schools

Reach School - A college that you have a *chance* of getting into, but your test scores and/or high school grades are lower than the scores on the school's profile.

Target School - A college that you are *pretty likely* to get into because your test scores and/or high school grades fall right into the middle range when you look at the school's profile.

Likely School - A college that you will *almost certainly* get into because your test scores and/or high school grades are well above average when you look at the school's profile.

In-state School - at least 1 Maryland school for in-state financial aid opportunities
