

CARPENTRY

Do you like building, traveling, and being outdoors? Why not consider a career in carpentry? It is fun and offers the beginning of a lifetime of exciting opportunities!!!!

As your knowledge and experience grow, there will be many carpentry career choices available to you... craft professional, foreman, project manager, superintendent and/or a company owner.

You can earn credentials in the carpentry class once you successfully complete the program. These credentials are nationally recognized in the industry and can open the door for your career with a good company that will assist in advancing your education after high school

Classroom and performance activities will include a variety of hands-on job site experiences, class discussions and critiques, open-ended problem solving, work-based learning and project-based learning.

Students will be required to draw upon academic skills in the areas of mathematics, science, and technology.
