

Subject : SchoolCash Online Announcement - Echeck Update

Hi,

SchoolCash Online uses the most trusted and secure providers to offer **eCheck** transactions with instant account verification per the ACH network requirements. Our current provider will soon be discontinuing their service and we will be transitioning to a new service provider who will be offering the same level of service and security for parents using the eCheck payment option.

Note: This will only affect the parents who are using “Echeck” as their method of payment.

With this update there will be no disruption in service for parents or your school. The new service will be as easy as it always has been.

The update should be completed around December 20, 2022.

Below highlights the few changes that parents will see when verifying their account using the new service provider.

Echeck Payment Selection Method:

Select Payment Method **BEFORE**

eCheck 

Account Verification: After selecting your bank, you will be prompted to enter your banking credentials. Please note that SchoolCash Online does not store any financial details. The information you submit is used to authenticate your account before completing a purchase. For more information, please visit our terms and conditions.

Search for your bank or credit union.
