*** Items maked with an asterik will need to be replenished on a consistent basis.**

PE Uniforms: We do not require PE uniforms however; students must wear appropriate clothes and footwear to participate in PE safely.

Calculators: The TI-84 (Plus) Calculator will be used regularly in your child's Algebra and Geometry class. Although students will be provided with a graphing calculator for use in school, students are best served by having a personal calculator and becoming very familiar with how it is used to address a number of different type of mathematics problems. All other classes will use four-function calculator. Again best to have your own, but students will have access to a calculator in all math classes.

Parents: Throughout the year, your child's teacher(s) will identify items for donation that will be appreciated. Tissues and hand sanitizer for classroom use are always needed and appreciated. If you would like to donate these. please send them in with your child. Thank you.
