Web Site Evaluation		
WHO	Can you find the author or organization responsible for the information? Does the author or organization seem to be an expert source? <i>(check: home, about, contact)</i>	★
WHAT	Is the information what you need? <i>(factual, in depth, useful)</i> Does it look professional? <i>(not silly or angry, good spelling & grammar, working links, if there is advertising it is not in your way)</i>	★
WHERE	Check the web domain. Is this a good location for your information? <ul style="list-style-type: none"> • .EDU is good, check that the author is an expert <i>(not a 5th grader)</i> • .GOV is good, check the date • If .COM (commercial) make sure they are selling information. • If .ORG (organization) check bias: know what side they are on. • If WIKI, BLOG, TUMBLR, POST, HUB or ~ is in the url: This is NOT an expert source. 	★
WHY	Is the main purpose of the site to provide information? <i>(not selling, entertainment or promoting a particular point of view)</i>	★
WHEN	Is there a date? Is the information current enough for your topic? <i>(NOTE: You can use a site with no date if everything else looks great and the actual date is not crucial to your research topic)</i>	★
